## Get in Touch with Trees!

1. Write a sentence that explains three reasons forests are important.

---

---

---

2. Using the table, list four abiotic (non-living) factors and describe how they affect plant growth.

<b>FACTOR</b>	<b>How it affects plant growth:</b>
LIGHT	
	<i>determines how fast photosynthesis occurs</i>
SOIL TYPE	
	<i>influences how much water is available, gives plants shape, and helps move heat from the plant</i>

3. Describe the differences between coniferous and deciduous trees.

---

---

---

4. List 2-3 of the forest-related jobs or careers you learned about in class. Can you think of any other forest-related jobs?

---

---

---

---
